## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Braverman (U.S. Patent 5,735,632).

As applicant is very familiar with this patent, discussion thereof will be brief. Figures 2, 3 and 5, for example, of applicant's prior patent show an apparatus within the scope of the present claim limitations. Further regarding the limitation of "handle," note that the apparatus could be lifted or carried; therefore, claim limitations are met. In other words, there are no structural limitations recited with respect to this term; therefore, that the apparatus can be manually carried is sufficient to meet claim recitations.
